## PIMA GIRL INJURED

When Automobile Plunges  
Over Embankment at  
Miami

Miss Minnie Bull, daughter of  
Mrs. James Bull, of Pima, had a very  
narrow escape from death Monday  
afternoon, at Miami, when an au-  
tomobile in which she was sitting sud-  
denly backed over a steep embank-  
ment, falling nearly 150 feet. The  
accident occurred near Dr. Hise's  
residence on Hillcrest avenue.

The young lady had accepted an  
invitation to ride with a young man  
who was delivering milk in a small  
motor truck. They had gone quite a  
distance when it became necessary  
to leave a bottle at the Hardy resi-  
dence. The driver set the brakes  
on the car and ran into the yard.

When he had reached the porch  
he heard a scream and looking back  
he was horrified to see the small  
machine running diagonally across  
the road, with its helpless victim  
frozen to the seat in terror. In an-  
other second the car, with the un-  
fortunate girl, toppled over the road-

## A Symbol of Health

The Pythagorians of Ancient  
Greece ate simple food, practiced  
temperance and purity. As a badge  
they used the five pointed star which  
they regarded as a symbol of health.  
A red five pointed star appears on  
each package of Chamberlain's Ta-  
blets, and still fulfills its ancient mis-  
sion as a symbol of health. If you  
are troubled with indigestion, bil-  
iousness or constipation, get a pack-  
age of these tablets from your drug-  
gist. You will be surprised at the  
quick relief which they afford. Ob-  
tainable everywhere. adv-12-4t

way, rolling over and over to the  
bottom of the deep gulch.

With a number of people who had  
witnessed the accident, the milkman  
rushed to the bottom of the decline  
and found the girl, who, at first was  
thought to be dead, lying in a mass  
of wreckage. Dr. Hardy was sum-  
moned and drove the young lady in  
his machine to the Miami Inspira-  
tion Hospital, which was found to  
be crowded. A superficial exami-  
nation convinced the physician that  
the young woman would be able to  
stand the trip to Globe and she was  
taken there in an ambulance. On  
arrival it was ascertained that in  
spite of her terrible fall, no bones  
were broken and that she was suf-  
fering principally from painful in-  
juries on the body, combined with  
the effects of the shock.

Mrs. Bull left Pima Tuesday for  
Miami, as soon as she received word  
of the accident which befell her  
daughter.

## Whooping Cough

One of the most successful pre-  
ventions in use for this disease is  
Chamberlain's Cough Remedy. S.  
W. McClintock, Brandon Springs,  
Ark., writes: "Our baby had whoop-  
ing cough as bad as most any baby  
could have it. I gave him Cham-  
berlain's Cough Remedy and it soon  
got him well." Obtainable every-  
where. adv-12-4t

## COMPARATIVE DATA

(Continued from Page One)

trary a majority of the companies  
have expressed satisfaction with the  
method used by the Commission.

If a few of the "quick tax doc-  
tors" will "lay off" during the next  
session of the legislature, I am  
sure the mining companies will  
be able to submit the taxation of their  
property to the same laws and au-  
thority that other classes of prop-  
erty are required to submit to, and  
the same tax question will not again  
be the cause of the special sessions  
of the legislature, as it was in the  
year 1915. Very truly yours,  
CHAS. R. HOWE,  
Chairman State Tax Commission.

## Reliability

OUR absolute faith in the Max-  
well car is due to two reasons:  
First, we have known that  
the Maxwell Company uses nothing  
in the entire car but the very best  
that money can buy. We have  
known that the steel is scientifically  
heat treated, that the car is built  
under the supervision of able en-  
gineers, that every car is rigidly tested  
many times before it leaves the  
factory.

Second, we have known that the  
big and well established company  
behind the car is building for the  
future, that they value a satisfied  
owner above everything else.

Now that the Maxwell has set the  
World's Motor Non-Stop Mileage  
Record, by travelling continuously  
for 44 days and nights—averaging  
500 miles per day—you will under-  
stand the benefits you personally  
may derive from the Maxwell policy.  
Did you ever hear of any car going  
22,000 miles without once stopping  
the engine, without any repairs or  
readjustments, with only one gallon  
of gasoline to every 22 miles?

There is no reason why you  
shouldn't have a reliable, service-  
able and economical Maxwell car.  
The first cost is low, the operating  
cost is low and our pay-as-you-ride  
plan makes the purchase easy for  
everyone.

Let us see you about this now,  
before our allotment is exhausted.
